NEW CONTEST CATEGORY

During the pre-task assignments' approval, we have discovered that the field of the 10th IA contest category Electronic Assembly is not similar to the one with the same title that was presented at 9th IA.

Thus after consulting the IAF Secretariat we decided to introduce new contest category – Electronics. Right now the pre-task assignment of this new contest category is under approval of international experts.

After we get the document approved, we will forward it all countries/regions who sent the bids for Electronic Assembly contest category the pre-task assignments for both Electronic Installation and Electronics in order to know whether countries/regions got it right and sent the bid for the contest category they initially wanted.

INFORMATION ON PRE-TASK ASSIGNMENTS

The process of the pre-task assignments' approval is officially over. Our experts are finalizing the pre-task assignments in accordance with the comments and recommendations of international experts.

Experts from **China, Japan, Korea, Malaysia and India** sent their opinions and questions. We would like to thank them once again for their hard work!

In November all the pre-task assignments will be posted on official website of the 10th IA so that all countries/regions could prepare well for the upcoming competitions. All IAF members will be then informed that the pre-task assignments are available.

IMPORTANT NOTICE

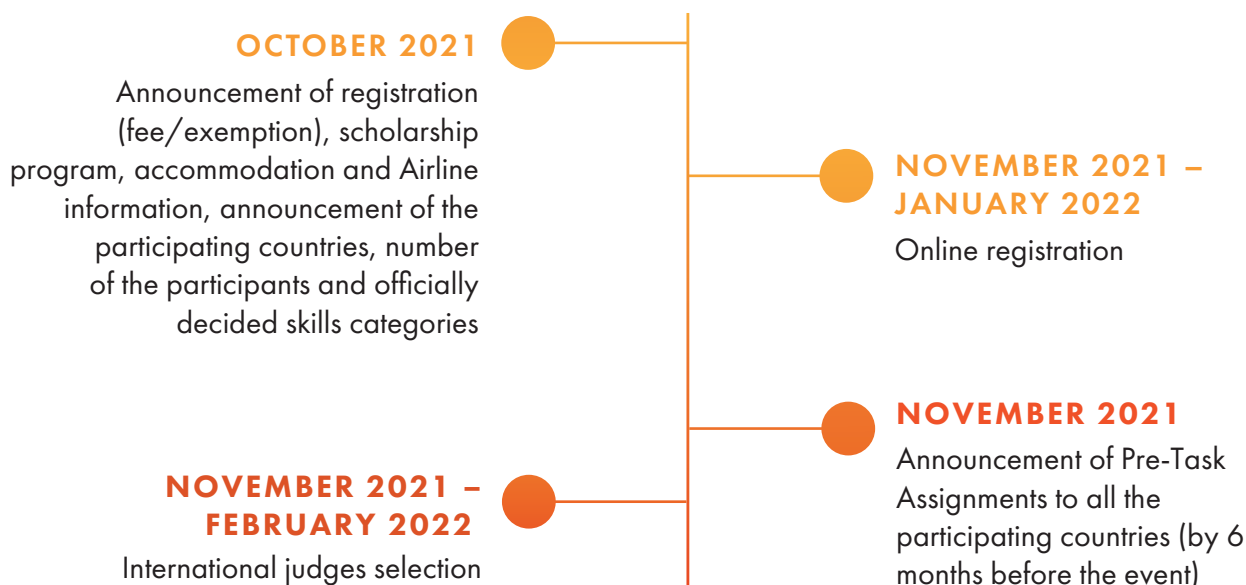

The Manicurist pre-task assignment is going to be performed on human models out of countries/regions' delegations. Delegations are to bring their own models for the 10th IA.

The Hairdressing pre-task assignment consists of 3 modules. Module 1 and Module 2 are to be also performed on human models out of countries/regions' delegations. Module 3 is to be performed on mannequins.

10th IA TIMELINE REMINDER

THE FORUM OF INTERNATIONAL EXPERTS

The Forum of International Experts will be held within the framework of the VII National Abilympics in Russia on November 16 – 19, 2021 in Moscow.

The Forum is aimed at exchanging the experience among international and Russian Abilympics experts and judges; at developing unified approaches to judging at International Abilympics championships that meet the challenges of modern society, i.e. digitalization of industries, development of fundamentally new technologies and approaches in the inclusive education, increasing employers' requirements for the qualifications of employees.

The participation of IAF Secretariat, IAF EXCO, international and Russian experts and judges is expected.

We will arrange the livestream of the event and share the link with everybody so that everyone had a chance to join us at this wonderful event.
